What is Evidence-Informed Public Health?

The process of **distilling** and **disseminating** the best available evidence from research, context and experience, and using that evidence to **inform** and **improve** public health practice, programs and policy.

Evidence-informed decision making

The NCCMT Resources

MODULES BY STEPS

Estimated Time
To Complete

Learners who complete these modules and achieve at least 75% on the final tests earn certificates of competence for each module completed.

Module	Estimated Time To Complete	DEFINE	SEARCH	APPRAISE	SYNTHESIZE	ADAPT	IMPLEMENT	EVALUATE
Introduction to Evidence-Informed Decision Making	2-3 hours	●	●	●	●	●	●	●
Quantitative Research Designs 101	3-4 hours	●	●					
Searching for Research Evidence in Public Health	3-4 hours		●					
Critical Appraisal of Guidelines	3-4 hours			●	●

Understanding Research Evidence | (11 Videos)

Understanding and interpreting research evidence is an important part of practicing evidence-informed public health. You need to understand some basic concepts. This series of short videos explains some important terms that you are likely to encounter when looking at research evidence.

Show Videos

Process

- Requests and feedback from user groups
- Consultations with community partners
- Web development/testing

Accessing EIDM training and resources offline

- FREE
- 2 GB USB
- User guide, nccmt.ca folder, NCCMT.exe shortcut

Includes	Does not include
<ul style="list-style-type: none">- The Learning Centre- Understanding Research Evidence Videos- Why it Matters Videos- KT Registry of Methods and Tools- Skills Assessment- Rapid Review Guidebook	<ul style="list-style-type: none">- Health Evidence™- Online learning module certificates- Access to external website links <p>*Note: KT Registry of Methods and Tools & Public Health+ only current to download date</p>

We would love to hear from you!

- To share your thoughts this remote access project please contact:
Claire Howarth at howartce@mcmaster.ca
OR nccmt@mcmaster.ca

Conclusions

- Offline format increases access to resources and training for EIDM in public health in northern/rural/remote settings w limited internet connectivity
